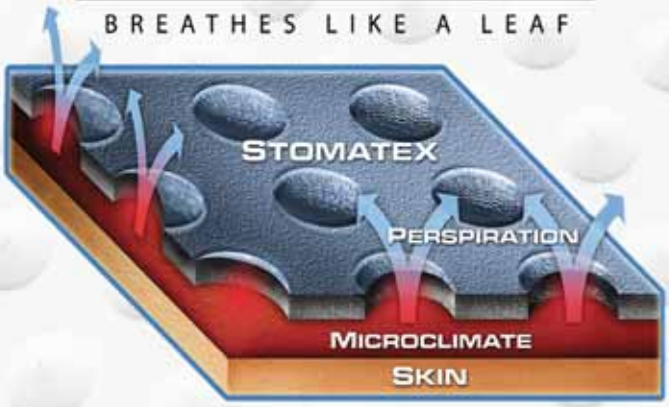
Orthopaedic Support & Solutions

BENEFITS OF NEXUS BREATHABLE BODY SUPPORTS

- Provide relief from discomfort to numerous pain conditions
- Encourages ligamentous remodelling
- Aids the correction of joint biomechanics
- Helps prevent muscle damage caused by exersion after periods of inactivity
- Lightweight design and breathable soft fabric allows the supports to be worn for far greater periods of time than traditional neoprene supports
- Simple fold over securing system allows the user to tension the 'One Size Fits All' supports to give them the precise level of support to target key points of discomfort

stomatex

BREATHES LIKE A LEAF



BENEFITS OF STOMATEX

- Balances the body's heat, keeping joints and muscles warm whilst venting excess body heat
- High elasticity to provide exactly the right level of support
- Expels perspiration through micro chambers to keep skin dry and comfortable
- Non absorbent material
- High compression resistance and tensile strength
- Fully washable, can be worn under or over clothing; man-made fibres must be used to allow the supports to breathe when worn outside of clothing

Lumbar Support Belt
